

SELF-INSTALL SOLAR PV KITS

the beauty is in the simplicity

Plug In Solar is a DIY Grid-Tied solar power kit, which allows you to generate **FREE ELECTRICITY** you can use to power appliances in your home.

No need for an EPC inspection, MCS Certification or The Smart Export Guarantee (SEG).

Plug In Solar kits include everything you need to start saving money on your electricity bills, **WITHOUT** government incentives.

illustrative purposes only

PLUG IN SOLAR DIY KITS INCLUDE **EVERYTHING YOU NEED TO COMPLETE YOUR OWN SOLAR PV INSTALLATION** WITHOUT THE REQUIREMENT FOR A DEDICATED INSTALLATION TEAM*

Why Choose a Plug In Solar DIY Kit?

Simplicity

Plug and Play System (Self-Install)*

Safety

All AC Wiring (No High Voltage DC)

Power

Individually Optimised Solar Panels

Reliability

25 Year Micro-Inverter Warranty

Scalability

Modular design (add more Solar panels in the future)

Intelligence

Monitor each Solar Panel individually

Customisable

Choose from a range of Solar panels & mounting systems

*Final connection to the grid must be made and signed off by a qualified electrician
All electrical work must comply with the latest IET Wiring Regulations and Codes of Practice
Please visit the [important information page](#) on our website for more information on regulations
