MAX POWER. MAX SAFETY

Plug-in Home Battery

4000W PV Input | **4–16kWh** Capacity | **8,000** Life Cycles | **2500W** Inverter

Plug. Power. Done.

Simply connect your PV panels and plug into any standard socket, no setup and no hassle required

Built to Last. Designed for Safety

Automotive-grade 314Ah LFP cells with 48-layer protection, proven reliable in 10+ tough conditions

AI That Saves More

Adapts to dynamic pricing, weather, and your usage, re-optimizing every 3 hours for smarter and more accurate savings

Solar & Storage in One

Up to 4000W solar input with 2500W output, maximizing every watt with 96.5% efficiency.
